

What People Are Saying about Media Safe Workshops

*"The **Media Safe Workshop** presentation was both timely and effective. Students were made aware in an interactive way, and it challenged them to really think about what they do on social media and how it can impact their lives, not only in the moment, but into their future."*

Dr. Tarmo Poldmaa, Vice Principal, Michipicoten High School

"The Workshop helped parents feel confident about setting boundaries while embracing the benefits of current media. We also gained a better understanding of each type of media, and left feeling empowered and supported."

Pastor Brian & Lynn Danter, Windsor Christian Fellowship

*"The format of the Workshop allows for attendees to ask questions and receive detailed answers. We highly recommend **Media Safe Workshops** be presented to students, parents, and teachers so that everyone can feel supported in the world of media and technology."*

Danette Mathias, Director, Victim Services of Wawa & Area

"Great book buddy, just read it at my son's game - very cool and great music quotes!!!!"

Matt Bissonette, The Elton John Band

"Just read 'saving face (book)'. Thanks, Ryan, for a great resource. Easy to read (in a good way), and filled with tons of great thoughts on how to help parents navigate the digital world with their children."

Pastor Ike Unger, LEMMC

What Parents Are Saying about Media Safe Workshops

"Attending the Media Safe Workshop with my daughter was the bonus. Although I was aware of most that was talked about, it brought to my 12 year old an awareness that people other than just her mother were saying these things, opening up communication and interaction between us. I also found out a few things I didn't know and should have been aware of that she had been involved with on the internet."

"Ryan is a very engaging presenter who provides the audience a good overview of ways to help families safely navigate through today's complex social media avenues."

"Media Safe Workshops not only helps students by reminding them that they are in control of their privacy, but helps parents to communicate with their children about media issues."

"Ryan Richardson is meeting an area that is overdue: how to be safe in the social media world. His Media Safe Workshops are great for helping parents, guardians and teachers set up boundaries and establish principles to help young people safely navigate this new world."

"Be aware, prepared and communicate in a way that is positive, productive and cooperative. Don't shut out but open up and filter in access to the world today."

"Media Safe Workshops allowed parents an opportunity to ask the questions they always wanted to. We were able to see into the social world our children are living and growing up in."
